THE WORDS OF PATRIOTISM AND OF A PATRIOT —"Whoever is not prepared to sacrifice party organizations and platforms on the altar of his country, does not deserve the support and countenance of honest people How are we to overcome partisan antipathies in the minds of men of all parties so as to present an united front in support of our country? *We must cease discussing party issues, make no allusions to old party tests, have no criminations and recriminations and indulge in no taunts, one against the other, as to who has been the cause of these troubles* When we shall have rescued the Government and the country from its perils and seen its flag floating in triumph over every inch of American soil, it will then be time enough to inquire as to who and what have brought these troubles upon us When we shall have a country and a Government for our children to live in, in peace and happiness, it shall be time for each of us to return to our party banners according to our own convictions of right and duty Let him be marked as no true patriot who will not abandon all such issues in a time like this"

BRIGADIER GENERAL GEORGE WRIGHT, now commanding the forces on the Pacific, promoted to that rank within three or four months, is a graduate of the Military Academy at West Point entered the service as 2d Lieut 3d Infantry, July 1st, 1822 being appointed from Vermont, of which State he is a native He was breveted 8th Sept , 1847, and assumed the rank of Colonel, March 3d, 1855

RICHARD C DRUM, Adjutant General of the Pacific Department, originally entered into the service as 2d Lieut 9th Infantry, 9th April, 1847, appointed from his native State of Pennsylvania He received the title of Major 3d August, 1861, but is not a regular graduate of the Military Academy at West Point

FRENCH VIEWS —An intelligent Frenchman in a recent number of the *Revue Deux Mondes* says

"The English cherish the disdain of an aristocratic race for the republican Yankee democratic France (!) has been enabled to take lessons from American democracy, and has more than once made itself envied by the latter. The two young volunteers who have just enrolled themselves in the army of the North have thus remained faithful in their choice of the cause which they would serve, to the traditions of their country

COTTON BURNING —The Charleston *Mercury* says of the burning of cotton —

"Let the holy flames continue to ascend, and let the demons of hell who come here on their diabolical errand learn a lesson and tremble Let the torch be applied wherever the invader pollutes our soil and let him find, as is meet, that our people will welcome him only with devastation and ruin "

These rebels seem to think we are after their cotton Burn it by all means

GREAT HURRICANE AT CARSON —A letter from Carson City of February 29th says

"A terrific hurricane has prevailed here all day It commenced storming day before yesterday and gradually increased ever since until to-day It has snowed and rained alternately, and blowing with great violence Buildings have been unroofed, and one or two brick buildings so badly cracked, that it is unsafe to remain in them The gale still continues

Somebody writes to the San Francisco *Bulletin* that "he has no doubt at least one hundred men have perished from cold in the upper country the present winter,"

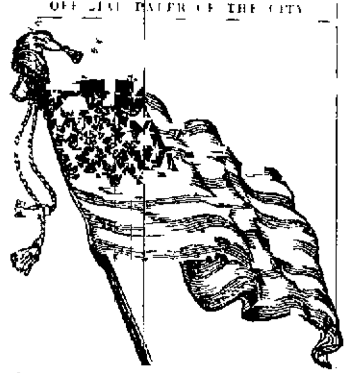
OFFICIAL PAPER OF THE CITY



[illegible]

THURSDAY MORNING, MAR[illegible] 186[illegible]

The Precinct Meetings

We d[illegible] to urge [illegible] friends to [illegible] at the precinct meetings [illegible] a duty we expect [illegible] them and [illegible] trust they will not be faithless. We want the right men to be elected [illegible] the County Convention—Union men [illegible] strictest sort—who in nominations will give full expression to the Union sentiment. We trust Union men everywhere in the precinct and county meetings will carry out in good faith the programme laid down by the Republican and Democratic Union Committee. Let every thing be done fairly and properly, and though all men who desire nominations [illegible] in the nature of things obtain them, yet the end will be satisfactory, and the union cause at the election will be overwhelmingly successful.

We tell our friends to be firm, prudent, conciliating,—always disposed to [illegible] the right and exact the right—and we need not fear the results at the coming election.

Coward and Deserter.—The Victoria [illegible] [illegible] the 24th ult [illegible] that place [illegible] John Mullan [illegible] of the Oregon [illegible] Walla Walla [illegible] Washington [illegible] away [illegible] the steamer and on the 7th December arrived at Victoria [illegible] West Point Military Academy in 18[illegible] and belongs to Oregon. Relatives [illegible] friends [illegible] have [illegible] him to his [illegible] every argument [illegible] induce [illegible] return to [illegible] has led to the disgrace of John Mullan.—*Puget Sound Herald.*

Butler P. Anderson states in the *Occidental Press* that the above statement is a slander upon the character of Mr. John Mullan. And goes on to say that "As soon as I can hear from him, I will present the facts with reference to his resignation from the army to you for publication."

The only thing singular in this matter is, that Mr. Anderson did not refrain from pronouncing the statements of the *Press* slander, until he was able to present the facts with reference to the resignation, of which he acknowledged his ignorance.

Guard the Telegraph Lines.—The rebels have received immense benefit by the use of the Telegraph Lines in the Free States. This is stopped for the present. We learn from San Francisco that it was supposed this measure preceded a movement of McClellan's army to Manassas or Richmond. We do not think so. The detention of the rebel army near Washington is a capital stroke of policy that we think will be persisted in. We should not be surprised, however, to learn by next arrival that Richmond was evacuated by Jeff Davis and his cabinet anticipating a [illegible] when, if they remained there would be no chance of an escape.

The Black Flag.—A dispatch to Richmond from Charleston says that the authorities of South Carolina will adopt the same course with Union prisoners that Governor Wise pursued at the time of the John Brown raid, and that when South Carolina is done with the invaders the Confederate Government can have them. Go on rebels, your time will come.

Mr. Stanton.—The new Secretary of War, Mr. Stanton, was Attorney General under Mr. Buchanan; yet, nevertheless, he was always a warm friend of the Union, and especially devoted to the coercive process in crushing out rebellion.

Coming.—A letter from Marysville says, that there is a large number of people here that are "getting ready to float to the new mines of Oregon as soon as navigation becomes practicable."

That Terrible Battle

The battle of Fort Donelson was the great battle of the war to the present time. On Saturday night at twelve o'clock Commodore Foote, in the gun boat *Carondelet*, reached Cairo from Fort Donelson. On [illegible] afternoon he made an attack on the f[illegible] *St. Louis* [illegible] *Pittsburg* [illegible] [illegible] killed and wounded [illegible] The *St. Louis* was hit sixty [illegible] and the *Louisville* [illegible]

The enemy's firing was [illegible]. They had three batteries—one on [illegible] feet above the [illegible]. The upper one [illegible] [illegible] 128 pounders. This one was [illegible] [illegible] hundred yards [illegible] the fort. Our fire was directed principally at the water batteries. One of the enemy's guns burst [illegible] a number of [illegible] wounded [illegible] mounted. The enemy [illegible] carrying their dead from the [illegible]

Capt. W[illegible] of the steamer [illegible] reports that [illegible] o'clock on Saturday [illegible] from the fort [illegible] and captured the Schwartz Battery [illegible] their battery drove the rebels before them and planted our flag on the outer fortification [illegible]

A correspondent of the *St. Louis Democrat*, writing Friday, says:

"The more I see of the fort, the more I am convinced it cannot be reduced without a terrible battle. Its rear seems almost impregnable. The outworks [illegible] first are located on ridges [illegible] hundred [illegible] to two hundred and fifty feet high covered with dense timber. On similar gorges and hills outside these our army is drawn up in line [illegible] completely enclosing the enemy [illegible] Cumberland south of the fort to the back water of the stream which flanks the fort on the north. Gen. Oglesby, who has the [illegible] last night dashed forward his brigade to Cumberland and has planted a battery commanding the river which will [illegible] prevent the arrival of any more reinforcements. In fact, we have them completely surrounded and can complete the [illegible] at our leisure. Considerable skirmishing [illegible] Thursday night both [illegible] in the darkness [illegible] each other. Friday morning it was discovered the enemy had placed [illegible] the top of the [illegible] from our sharpshooters."

The fort was taken on the [illegible] prisoners.

We have files of the Honolulu papers up to [illegible] February. The papers complain of the dullness of the times. The ship *George Washington*, from [illegible] had just arrived with a full cargo of [illegible].

The *Commercial* says:

"The bark [illegible] *Eldridge* has been laid on the berth for Victoria and Portland, O[illegible] and will sail in the course of [illegible] days. She is the pioneer on a new route, which must prove a profitable opening to the adventurers, while it will give an impetus to the commerce of our port. Victoria, with her [illegible] system is [illegible] best market for produce, while Oregon will furnish our lumber, wheat, oats, barley [illegible] (if we must import them) twenty per cent cheaper than San Francisco. We wish this enterprise every success, and doubt not before many round trips have been made a second vessel will be required for the trade."

The Cotton Supply.—Lord Palmerston says the present rebellion will have one good result for England. It will open cotton supplies from other countries than the United States. This prediction has already proved true. England is receiving supplies from India, South Africa, Algeria, Egypt, Jamaica, and a score of other countries. The [illegible] source of supply, however, is Peru. The British steamer Callao, at Panama, had a large quantity of Peruvian cotton on board, while a still larger quantity was on its way around Cape Horn. The staple is said to be of superior quality, and a large crop is to be raised on the Peruvian coast this year. [illegible] Hall of Illinois, it is said, will make a good cotton region.

The Exodus of Miners from California.—The *Herald and Mirror* does not understand how so many people become infested with a desire to visit, in search of wealth, the distant and unknown regions lying to our north and which are said to abound with gold. The same causes that induced thousands upon thousands to leave their homes in the Eastern States, to reach California by land and water in pursuit of gold in years past, are now operated to lead off the miners of California to the newly discovered mines of Washington and Oregon. These mines are as rich as those of California in her palmiest days.

Oregon war bonds are quoted in the New York papers at 84 cents.

We should [illegible] otherwise reply to the remarks in the last *Statesman* in relation to an article [illegible] *Oregonian* [illegible] [illegible]

[illegible]

We find the [illegible] *Oregon* [illegible] correct [illegible] the British [illegible]

Dismissal.—[illegible]

We have [illegible] mines [illegible] Territory [illegible] Nevada Territory.

Late News from Port and via Victoria.—The [illegible] *Press* [illegible] says [illegible] [illegible] *Puget Sound* [illegible] in Portland.

[illegible] *Cloud* [illegible] passengers.

It is proposed that hereafter Washington's birthday shall be kept as a holiday—as the Fourth of July, Christmas, New Year's Day and Thanksgiving. It was so kept in San Francisco. We second the motion, and let it [illegible] of the [illegible] and true in these parts.

The Great Battle at Fort Donelson.—The Illinois soldiers bore the brunt and [illegible] this terrible battle. [illegible] were braver [illegible] brethren at Buena Vista are still fresh and green.

The [illegible] papers give notice [illegible] will be [illegible] at the office of W. W. Mill[illegible] of that [illegible] Tuesday, the [illegible] day of April for subscriptions to the capital stock of the Columbia Transportation Company.

The *Unionist* still holds on to Senator Stark's [illegible] that the South cannot be conquered. It says it wants peace by mutual consent. [illegible]

On yesterday the snow had gone off in [illegible] in Washington county, and in others [illegible] as much [illegible] the [illegible] [illegible]

The wreck of the steamer [illegible] has been found [illegible] San Juan [illegible] It will [illegible] to place the [illegible] running order [illegible]

How to go to the Mines. [illegible] all [illegible] BECKER BROTHERS [illegible] the [illegible] Wharf and supply themselves with [illegible] Groceries, Blankets, Clothing [illegible] and all other articles necessary for mining purposes before they embark for the Land of Promise.

OFFICIAL PAPER OF THE CITY.

No flag but the Old Flag—the Red, White and Blue,
With the stars of a Union unbroken and true!
Arise and defend it! ye sons of the brave,
Whose blood bought the banner your valor must save.

THURSDAY MORNING, MAR. 13, 1862.

The Precinct Meetings.

We desire to urge our friends to be present at the precinct meetings on the 22d. This is a duty we expect of them, and to which we trust they will not be faithless. We want the right men to be elected as Delegates to the County Convention—Union men of the strictest sect—who in nominations will give full expression to the Union sentiment. We trust Union men, every where, in the precinct and county meetings, will carry out in good faith, the programme laid down by the Republican and Democratic Union Committees. Let every thing be done fairly and properly and though all men who desire nominations cannot in the nature of things obtain them, yet the end will be satisfactory and the union cause at the election will be overwhelmingly successful.

We tell our friends to be firm, prudent, conciliating—always disposed to accord the right, and exact the right—and we need not fear the results at the coming election.

Coward and Deserter.—The Victoria correspondent of the *Overland Press*, under date of the 24th ult., gives an account of the desertion to that place of Lieut. John Adair, late of the Dragoons stationed at Walla Walla, casting off his uniform, on being ordered to Washington, he stowed himself away on the steamer, and on the 7th December arrived at Victoria, where he still remains. He graduated at the West Point Military Academy in 1861, and belongs to Oregon. Relatives, friends, and officers of the army have followed him to his hiding place, and exhausted in vain every argument and appeal to induce him to return to duty. Cowardice alone, we believe, has led to the disgrace of John Adair.—*Puget Sound Herald.*

Butler P. Anderson states in the *Overland Press*, that the above statement is a slander upon the character of Mr. John Adair. And goes on to say, that: "As soon as I can hear from him, I will present the facts with reference to his resignation from the army, to you for publication."

The only thing singular in this matter, is, that Mr. Anderson did not refrain from pronouncing the statements of the *Press* "slander," until he was able to "present the facts with reference to the resignation," of which he acknowledged his ignorance.

Guard the Telegraph Lines.—The rebels have received immense benefit by the use of the Telegragh Lines in the Free States. This is stopped for the present. We learn from San Francisco that it was supposed this measure preceded a movement of McClellan's army to Manassas or Richmond. We do not think so. The detention of the rebel army near Washington is a capital stroke of policy that we think will be persisted in. We should not be surprised, however, to learn by next arrival that Richmond was evacuated by Jeff. Davis and his cabinet, anticipating a period when, if they remained, there would be no chance of an escape.

The Black Flag.—A dispatch to Richmond from Charleston says that the authorities of South Carolina will adopt the same course with Union prisoners that Governor Wise pursued at the time of the John Brown raid, and that when South Carolina is done with the invaders, the Confederate Government can have them. Go on, rebels, your time will come.

Mr. Stanton.—The new Secretary of War, Mr. Stanton, was Attorney General under Mr. Buchanan; yet, nevertheless, he was always a warm friend of the Union, and especially devoted to the coercive process in crushing out rebellion.

Coming.—A letter from Marysville says, that there is a large number of people here that are "getting ready to float to the new mines of Oregon as soon as navigation becomes practicable.

That Terrible Battle.

The battle of Fort Donelson was the great battle of the war to the present time. On Saturday night at twelve o'clock, Commodore Foote, in the gun-boat *Carondelet*, reached Cairo from Fort Donelson. On Friday afternoon, he made an attack on the fort with gunboats *St. Louis, Louisville, Pittsburg, Carondelet, Tyler*, and *Conestoga*. After fighting a little over an hour he withdrew. Fifty-four men were killed and wounded on our boats. The *St. Louis* was hit sixty-one times, and the *Louisville* fifty-seven.

The enemy's firing was very accurate. They had three batteries—one near the water, one fifty feet above this, and the third fifty feet above the second. The upper one mounted four 18-pounders. This one was held until our boats got within four hundred yards of the fort. Our fire was directed principally at the water batteries. One of the enemy's guns bursted, and a number of others were dismounted. The enemy could be seen carrying their dead from the trenches.

Capt. Wise, of the steamer *Minnehaha*, reports that the enemy made a sortie at ten o'clock on Saturday morning, from the fort, and drove our forces back three-quarters of a mile, and captured the Schwartz Battery. At one o'clock our troops rallied, recovered their battery, drove the rebels before them, and planted our flag on the outer fortification.

A correspondent of the St. Louis *Democrat*, writing Friday, says:

"The more I see of the fort, the more I am convinced it cannot be reduced without a terrible battle. Its rear seems almost impregnable. The outer works and bastions of the fort are located in ridges one hundred and fifty to two hundred and fifty feet high, covered with dense timber. On similar gorges and hills outside these, our army is drawn up in line of battle completely inclosing the enemy from Cumberland, south of the fort to the back water of the stream which flanks the fort on the north. Gen. Oglesby, who has the extreme right, last night pushed forward his brigade to Cumberland, and has planted a battery commanding the river, which will effectually prevent the arrival of any more reinforcements. In fact, we have them completely surrounded, and can complete the job at our leisure. Considerable skirmishing occurred during Thursday night, both forces endeavoring in the darkness to crowd in upon each other. Friday morning it was discovered the enemy had placed logs on the top of the breastworks, leaving a little space in them to shoot through, much diminishing the risk from our sharpshooters.

The fort was taken on the 16th with 15,000 prisoners.

We have files of the Honolulu papers including the 6th of February. The papers complain of the dulness of the times. The ship *George Washington*, from New Bedford, had just arrived, with a full cargo of goods.

The *Commercial* says:

"The bark *A. A. Eldridge* has been laid on the berth for Victoria and Portland, Oregon, and will sail in the course of ten days. She is the pioneer on a new route, which must prove a profitable opening to the adventurers, while it will give an impetus to the commerce of our port. Victoria, with her liberal *free port* system, is our best market for produce, while Oregon will furnish our lumber, wheat, oats, barley, apples, &c., (if we must import them,) twenty per cent. cheaper than San Francisco. We wish this enterprise every success, and doubt not before many round trips have been made, a second vessel will be required for the trade."

The Cotton Supply. — Lord Palmerston says the present rebellion will have one good result for England. It will open cotton supplies from other countries than the United States. This prediction has already proved true. England is receiving supplies from India, South Africa, Algeria, Egypt, Jamaica, and a score of other countries. The latest source of supply, however, is Peru. The British steamer "Callao," at Panama, had a large quantity of Peruvian cotton on board, while a still larger quantity was on its way around Cape Horn. The staple is said to be of superior quality, and a large crop is to be raised on the Peruvian coast this year. Half of Illinois, it is said, will make a good cotton region.

The Exodus of Miners from California.—The *Herald and Mirror* does not understand "how so many people become infested with a desire to visit, in search of wealth, the distant and unknown regions lying to our north and which are said to abound with gold." The same causes that induced thousands upon thousands to leave their homes in the Eastern States, to reach California by land and water, in pursuit of gold, in years past, are now operated to lead off the miners of California to the newly discovered mines of Washington and Oregon. These mines are as rich as those of California in her palmiest days.

Oregon war bonds are quoted in the New York papers at 84 cents.

We shall not otherwise reply to the remarks in the last *Statesman* in relation to an article which appeared in a late *Oregonian*, than to say that our object in that article was to induce mutual forbearance and secure harmony among Union men. We had no other motive. We have no private feelings to gratify—no personal wrongs to complain of: our only object and desire, at this time, is to secure the united action of the Union party, and in doing so, its entire success at the coming election. Our ambition built this extent, and no more.

Cariboo.—It is manifest, so far, that the Victorians would have done a better business in subsidizing miners to go to Cariboo, than subsidizing steamships to *run directly* to Victoria. A subsidy of five hundred dollars to each man with free passage to Victoria, might have induced some miners to proceed to the hyperborean regions of Cariboo; where, possibly, they would work nine weeks out of the fifty-two of the year.

A letter from Carson City, of Feb. 22d, says: "There is a talk of an expedition fitting out here to go to the Salmon river mines by way of the Humboldt, crossing the Northern portion of this Territory and Southern Oregon, which is said to be an open country, easily traversed with wagons. The plan is to prospect the intervening region, reported rich in silver mines, and, so far as known, holding out good prospects of success to the miner."

We find the following paragraph in the Victoria *Colonist*, of March 3d. If that paper is correct, Maj. Tilton is about to become a permanent resident in the British dominions:

Declined.—Major Tilton has declined the appointment of Colonel in the U. S. Army, lately tendered by that Government, and will shortly become a permanent resident of Victoria.

We have engaged as a correspondent in the mines the present season, Hon. Wm. E. Teall, member of the present Legislature of Nevada Territory. Mr. Teall has long been a mountaineer, and evidently is a gentleman of great personal energy. He brings the highest evidence of worth in letters from Gov. Nye, of Nevada Territory.

Late News from Portland via Victoria.—The Victoria *Press* of Feb. 28, says:

"A number of houses *are being erected* for the accommodation of miners which have flocked to that town by the late steamer. *Bogus twenty dollar pieces* are in circulation in Portland."

There is to be a sale of camels at Victoria. It is proposed that they should be used to pack goods to the Cariboo mines. The Victoria *Colonist* proposes that a number of trained whales be placed on the route from Victoria to Stickeen, to carry freight and inside passengers.

It is proposed that hereafter Washington's birth day shall be kept as a holiday—as the Fourth of July, Christmas, New Year's day, and Thanksgiving. It was so kept in San Francisco. We second the motion in behalf of the "gallant and true" in these parts.

The Great Battle at Fort Donelson.—The Illinois soldiers bore the blunt and loss in this terrible battle. Others were brave—none braver. The laurels won by their brethren at Buena Vista are still fresh and green.

The Olympia papers give notice that books will be opened at the office of W. W. Miller, of that place on Tuesday, the 3d day of April, for subscriptions to the capital stock of the Columbia Transportation Company.

The *Advertiser* still holds on to Senator Stark's declaration that the South cannot be conquered. It says it wants "a peace by mutual consent." *"It can be obtained in no other way."*

On yesterday the snow had gone off in places in Washington county, and in others, not as much exposed to the action of the sun, it remained a foot deep.

The wreck of the schooner *Tolo* has been found and towed into San Juan Island. It will cost but little to place the vessel in running order again.

How to go to the Mines.—Miners who now purpose to go to Salmon River, Rhodes Creek, and the other mining regions, should not start out unprepared to travel through a cold and starved-out country, for it is known by all who have come from above the Cascades that the country is now bare of all kinds of provisions, by its supplies having been cut off by the long stoppage of navigation. Therefore we would enjoin all who wish to go through comfortably, and return with their pockets full of "Rocks," to call into HARKER BROTHERS, opposite the Upper Wharf, and supply themselves with Flour, Bacon, Beans, Groceries, Blankets, Clothing, Rubber and Nailed Boots, and all other articles necessary for mining purposes, before they embark for the Land of Promise,

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

CIRCUIT COURT—Third day.—The forenoon of yesterday was taken up in the disposition of motions made by the attorneys. The rest of the day was occupied in the trial of the State of Oregon vs. George Rose—indictment for an assault with intent to murder Ann Farrell—W. W. Page and Geo. H. Williams for the prosecution and David Logan for the defense. The following gentlemen composed the jury: Wm. Cornell, Jacob Johnson, H. Cason, Chas. Clagget, Adam Stump, C. Ferris, W. W. Nelson, S. Potter, J. Welker, Thos. Ryan, John Lee, and Thos. Tice. The following are the witnesses examined on behalf of the prosecution: Mr. and Mrs. Farrell, Dr. Elwert, Messrs. Pomeroy, Miller, White, Marshal Grooms and Sheriff Starr. We do not deem it necessary to give the testimony, as it is essentially the same as we published the morning after the occurrence. The defense produced no testimony at all, and evidently relied on the eloquence of the learned counsel who undertook the task. During the progress of the trial, the Court-room was crowded with spectators, who seemed to take great interest in the case; and on one occasion gave vent to their feelings by applauding an eloquent expression made by Judge Williams in condemnation of the crime committed. After the charge by the Judge the jury retired for a short time, and returned with a verdict of guilty as charged in the indictment. The Court remanded the prisoner back to jail to be sentenced to-day.

The Grand Jury returned an indictment against William Williams for larceny. The prisoner was arraigned and allowed one day's time to plead.

DEFERRED DEPARTURE.—Owing to the large quantity of freight which had to be discharged by the *Sierra Nevada*, her departure was deferred until this evening.

THAT BUILDING.—Col. Chapman, the proprietor of the small frame building on the levee spoken of yesterday, informs us that it was merely erected for a temporary law office; and that he intended to build a substantial building in the place of it as soon as the material could be procured.

OREGON CAVALRY.—Col. Cornelius, Colonel of the Oregon Cavalry, has received orders from the Secretary of War through Gen. Wright, modifying previous orders; that he should enlist only six full companies for service instead of ten—which number we learn, is already enlisted. The Colonel holds himself in readiness for further orders from Gen. Wright.

THEATRICAL.—The theatre was again crowded last night to witness the "Lady of Lyons." The clever young actor, L. F. Beatty, took the part of Claude Melnotte, and played it with happy effect. Mrs. Forbes, as Pauline, was rapturously applauded.

DIED:

At Sunny Side, Whidby Island, W. T., Feb. 24th, 1862, Jacob Ebey, aged 68 years and four months; a native of Pennsylvania.

[Mr. Ebey served his country under Gen. Harrison in the war of 1812. In 1832, he commanded a company of Illinois Volunteers in the Black Hawk war, in the same battalion with Abraham Lincoln, who also commanded a company—both being residents of Sangamon county, Illinois. Crossing the Plains in 1854, Mr. Ebey settled with his family on Whidby Island, W. T., where he has resided ever since. A large circle of friends unite with his family in mourning the loss of so good a man.]

Commercial and Financial.

A number of vessels were being fitted out at Honolulu for the Arctic trade, embracing five or six. It is said that the Arctic trade pays as well as whaling.

The cultivation of Rice is being extended in the island. The *Commercial* says:

"From all that we can learn, there will be shortly not less than 400 acres under cultivation, and the product of the present year will exceed rather than fall short of one million of pounds. The certainty of the crop, the readiness with which the natives adapt themselves to its cultivation, the comparatively light labor required, and the small capital necessary, render it the most desirable branch of industry that has yet been introduced into this kingdom, and it will undoubtedly become the favorite employment of the natives, who will soon begin to use it for food."

We make the following quotations:

Agency Notice.—Mr. L. P. FISHER is our only authorized Agent in San Francisco to receive advertisements, and transact business for the DAILY and WEEKLY OREGONIAN. Office—No. 171½ Washington street, nearly opposite Maguire's Opera House.

☞ **Coughs.**—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement.

☞ **The Medical and Surgical Institute** of DR. L. J. CZAPKAY is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to practitioners in this department of medical science, and they occupy, with others, an equally lofty position in the profession. Ricord is an illustrious example, a shining light among the philosophical stars of his age in Europe, and Dr. Czapkay has fully equalled him in this country; as a proof of which, the Philadelphia College of Medicine complimented him with a Diploma, and the honorary ad eundem degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors, Dr. L. J. Czapkay has bent his earnest efforts on to the cure of chronic and private diseases, in which he has become so great an expert that he is now regarded as the leader in this branch of his profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company, San Francisco. We ask particular attention of our readers to the sworn certificates of remarkable cures in another column of this paper. Persons not wishing to lose time in corresponding, please enclose $10 in their letters and they will get immediate attention to their cases. Address, L. J. CZAPKAY, M. Of all diseases the first great cause
Springs from neglect of Nature's laws

To the Afflicted!

Suffer not when a cure is guaranteed in all stages of secret disease—Self Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines are pleasant, without odor, entirely vegetable, causing no sickness and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands who in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health as they are the first cause of consumption, scrofula and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system—drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the State, Oregon and Washington Territory by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.

Remarkable Instance of Medical Relief

Below we publish the certificates of three of those sufferers from the pangs of disease who have recovered their former health and impelled by gratitude make known their cases and remedial agent. The documents are authenticated by a Notary Public. The demands of society impetuously call upon them to publicity and we commend their perusal to the attention of all afflicted.

Certificate—The undersigned, impelled by a sense of duty, that those who may be unfortunate enough to be similarly afflicted where a permanent relief of their suffering may be obtained, feels it his duty thus publicly to express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practices of one uncontrollable passion, in youth depressed in body and mind, unable to perform even the most trifling duty imposed upon the hourly avocation of life, I sought the advice of many physicians, who at first regarded my disease as of trifling importance—but, alas! after a few weeks and in several cases months of their treatment I found to my great disappointment that instead of relief my symptoms became more alarming in their torture, and being told by one that my disease being principally confined to the brain, medicine would be of little consequence. I despaired of ever regaining my health, strength and energy, and as a last resort, with but a faint hope, called upon Dr Czapkay, who, examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result I resolved to place myself immediately under his care, and by a strict obedience to his directions and advice my head became clear, and my ideas collected, the constant pain in my back and groin, weakness of my limbs, the nervous reaction of my body on the slightest alarm or excitement, the misanthropic and evil forebodings, the self-distrust and want of confidence in others, the incapability to study and want of resolution, the frightful exciting and at times pleasurable dreams at night followed by involuntary discharges, have all disappeared, and in fact in two months after having consulted the doctor I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand. With the view to guard the unfortunate from falling into the snares of incompetent quacks I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience, that under his care a radical and permanent cure will be effected.

B. F. FILLMORE.

State of California, County of San Francisco.
Subscribed and sworn to before me, this seventh day of April A. D. 1856. Signed
[L. S.] JOHN MIDDLETON Notary Public.

MARYSVILLE, June 23, 185[illegible]

DR. L. J. CZAPKAY, San Francisco—Sir: I have used the last of your medicines and do not think I shall need any more, as I feel very well except that I have not entirely regained my strength yet, but soon will with the appetite I have. It is just three weeks, you may recollect, since I called at your Institute with my constitution, as I thought, broken entirely and never thought you would be able to cure me perfectly, but thought you might be able to do so [illegible] to ease the pain in my back and head and strengthen my nerves so that I would not get excited and tremble at everything. Now that you know what I expected, you may judge of my satisfaction at my complete recovery from all my symptoms and the removal of those sores and blotches from my skin and the ulcers from my throat and the entire stoppage of those emissions which you said were principally the cause of my sickness. I can hardly tell you which is the greatest, my joy or my surprise, for except not having full got my strength, I feel as well as any man can feel.

Enclosed I send you twenty dollars over your charge, as I think myself deeply cared. If you think anybody will be benefited you may put this letter in the newspapers. I remain yours gratefully.

THOMAS HAYDEN.

Thankfulness is the Incentive to gratitude

CERTIFICATE.—Prompted by an honest desire of my heart I wish to lay before the public a case which deserves not only to be known not only as an act of scientific skill but that of humanity also. About two years ago I suddenly, and for causes unknown to me, was seized with a fit of epilepsy, which owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with on attempting it, soon became such (I was then led to believe) as to defy the skill of any physician. I was frequently while in pursuit of my calling thrown to the ground without the slightest warning, and although insensible to the agonies, I yet despised the misery of my life, as I soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my affliction. While in this state and having previous to my affliction tasted the sweets of life I once more was induced to the seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him of my circumstances and of my inability to reward him for his services, regardless of which he nevertheless undertook my case, and with the blessing of God, I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and all afflicted to make the case public in order that those in need of medical advice may find a physician in whom every confidence can be placed.
